

Product Data Sheet

Honey Bee[™] Deodorant 24

Honey Bee[™] Deodorant 24 is a concentrated, liquid deodorant for use in aircraft toilets, cargo areas, and refuse storage tanks.

吴 Conforms To

- Airbus
 - o CML 14-001A
- Air Canada
 - o 3125-00-002 Rev. B
- AMS
 - AMS 1476B
- Boeing
 - o D6-17487 (Rev. L)

🔱 Benefits

- Quickly dispels toilet odors.
- Improved color and fragrance with better odor stability and pleasant scent.
- Prevents odor formation when applied directly to food spills and refuse.
- Controls odors for long periods of time by biocidal action and perfume formulation.
- Safe on all materials commonly used in construction of aircraft, including chemical toilets and refuse handling equipment.
- Safe for use in aircraft lavatory systems, ground servicing equipment and on materials of aircraft construction.
- Contains no phenolics, formaldehyde or heavy metals.
- Controls the deposit of sludge on recirculation pump screens.

i Properties

• Pleasantly scented, thin blue liquid

Notes Prior to Handling

Before using your Cee-Bee[®] products, all safety and operating instructions should be read and understood. If you have any questions, please contact your Cee-Bee[®] representative before proceeding.

ᅌ Use Procedure

Cleaning Toilet Systems Prior to Recharging with Deodorant

- When toilet systems are drained and cleaned before recharging with deodorant solution, the recommended cleaner is Honey Bee[™] 76. Please refer to the Honey Bee[™] 76 Technical Data Sheet for complete use procedures.
- To remove accumulated odor causing scale, use Honey Bee[™] 60. Please refer to the Honey Bee[™] 60 Technical Data Sheet for complete use instructions.
- Cee-Bee[®] cleaners were specifically formulated to be compatible with all toilet deodorants, including Honey Bee[™] 24. Unlike many cleaning compounds, Cee-Bee[®] cleaners will not react adversely with the deodorant to cause formation of lumps or residue.

Aircraft Lavatory Servicing

- Drain and flush aircraft lavatory holding tanks with water or lavatory deodorant.
- Charge toilet holding tank with a solution of 0.5 to 1.0 ounce per gallon (4 to 8 ml per liter) of Honey Bee™ Deodorant 24 in water.

Deodorizing Cargo Areas, Refuse Storage Areas, and Food Spills

- Dilute .25 oz (7.5 ml) of Honey Bee[™] 24 with 2.5 to 5.25 gallons (10 to 20 liters) of water.
- Apply solution directly to odor causing materials with sponge, mop, cloth or non-atomizing spray equipment.
- Allow to dry without rinsing.

Safety, Handling, and Precautions

- Skin and eye contact can cause irritation. Chemical goggles or face shield and chemical resistant gloves are recommended.
- In case of accidental contact, flush area thoroughly with water. If irritation persists, seek medical attention.
- Do not take internally.
- **KEEP FROM FREEZING!** Store at 40-100°F (4 38°C). If freezing occurs, move material to storage area where temperatures can be sustained at 60°F (15°C) or above for 24 hours.
- WARNING! Only cleaners such as Honey Bee[™] 60 and 76 which have been formulated to be compatible with all toilet deodorants, are recommended for cleaning aircraft toilet systems. A cleaner from this group should be used to insure against deactivation of the deodorant and formation of lumps or residue.
